

ANNOUNCING THE LAUNCH OF GRADIAN INSTITUTE

Building on Gradian Health Systems' deep field presence and robust clinical network, we are excited to announce a global organisation dedicated to advancing training, knowledge, and innovation for anaesthesia and critical care.

PILLAR ONE

Capacity Building

Bring together innovations and knowledge under the Gradian Institute to tailor best-fit capacity building opportunities for pre- and in-service clinicians, minimising practice gaps for anaesthesia and critical care.

PILLAR TWO

Knowledge Generation

Leverage Gradian Health Systems' presence in over 40 countries to conduct rapid data collection, rigorous open-access research, and high-value clinical insights around patient outcomes, provider practice, and product performance.

PILLAR THREE

Digital Innovation

Amplify the reach of high-fidelity, brick-and-mortar simulation by developing and delivering a suite of next-gen tools — including AI, VR, and AR — for low-bandwidth, high-value skill-building at the point of care.

Become a Founding Partner

GET INVOLVED

If interested in becoming a founding partner, email us here: institute@gradianhealth.org

● **Technology Companies**

Bring innovations to drive high-value capacity building opportunities at point of care

● **Governments**

Strengthen healthcare delivery by integrating best-in-class capacity building into workforce strategy

● **Academics**

Create training curricula and rapid research initiatives to advance clinical standards

● **Funders**

Shape the foundational phase of Gradian Institute
